# About Odeur Studios

## A brief history

Odeur was founded by Art director and Designer Petter Hollström in Stockholm in 2006 as a brand experiment. By replacing the traditional word-based logotype with a brand specific scent that is infused in the garments, Odeur was able to become the label with a non-visual logotype. The scent is described as white, clean and light. The triangular shape often used to brand the collection represents the construction of the scent – with a base note, middle note and top note.

The collections are developed drawing from a wide range of inspirations. Elements incorporated are always present in our direct surroundings, including musical, contemporary art, film and architectural references. Odeur embraces such open interaction through its uni-sex and multidisciplinary approach towards design.

Today Odeur is designed by Petter Hollström and Gorjan Lauseger and has spread to over 20 countries, selling clothing, jeans, outerwear, footwear and accessories. From 2013, the newly conceived, effortlessly clean quality accessory line Odeur Artefacts, have been added to the brands portfolio.

## A/W '17 — 'A Story Of'

What truly makes the world, as we know it today. Certainly we owe praise to what happened before. Those memories we built, the connotations appropriated and familiarized scents. During our time spent roaming the planet, we collage and connect small fragmented soundbites, selected encounters and snippets of conversations. Tailored to the whims of each individual, their enriching collectivity speaks louder than words.

AW17 marks a meticulous study of body, athleticism, form and function. The continuous graphic connotations have been replaced by subtle ton sur ton phrased embroideries. As understated calling cards, they drawn in the onlooker. Curious, yet part of the garments, they set the tone for the overall silhouette. Large oversized jackets are featured alongside rigid cropped coats, roomy shirts featured underneath lush knits, dropped crotch pants are donned with sultry hoodies and superfine grand bombers add a touch of urban irreverence. Variations in lengths, shine, texture, make for a dynamic injection of utility.

AW17 also denotes a strong tactile and wintry feel. Lush wool-cashmeres swoon together with combed cotton, superfine jersey, comfy knits and structured tech fabrics. Together these contrasts help shape the quiet exterior; rich in anticipation and fully elements-proof. The shell is subtly functional, distorted only by zipped pullers, pocketed closures and belted straps, that add, reduce or even out volume. To mimic the hazy winter-skies, whites are replaced by shades of sandy rose beige, hues of olive and deep saturated black.
